

CLEANLINE®

A new spin on public décor™

Beauty and Function

Combining

Cleanline® products are made by Toledo Metal Spinning Co. (TMS). We're dedicated to providing a product of the highest quality, along with comprehensive engineering services, exemplary customer service standards and on-time product delivery. Since 1929, we have applied stainless steel spinning, stamping, deep drawing, rolling and welding to develop products that not only meet your aesthetic requirements, but provide years of durable service. We build our receptacles to the highest tolerances for a precise fit and long product life.

Beauty and Function

CLEANLINE®

A new spin on public décor™

After all the time spent selecting every detail for your public space, why risk ruining your project's appeal by selecting ordinary waste receptacles? A Cleanline waste receptacle or planter is a high-performance choice that lends a clean, sophisticated look to any interior or exterior project. Choose Cleanline, and put a new spin on public décor.

Make your recycling effort an integrated part of your public décor with Cleanline’s variety of EnviroSpin top-loading waste receptacles. Our EnviroSpin receptacles are clearly marked, easy to maintain and durable, so your recycling will be beautifully contained.

Make Your

Microban® Liner Bags

- Complete your Cleanline program by using our perfectly-fitted Microban® liner bags, and put a lid on microbes™!
- Microban Antimicrobial protection inhibits the growth of bacteria that cause common odors in waste receptacles
- Microban liner bags are proven effective – the result of more than 20,000 tests by 27 independent laboratories

Exclusive Bag Stabilizer Slots

Customize your Cleanline products with fitted liner bags and a range of available stickers, and they will perform to the specific needs of your application. So make your Cleanline your own!

Cleanline A Perfect Fit

Cleanline[®] in Your Space

Cleanline receptacles offer all the features that make maintenance of your public décor effortless:

- Heavy gauge 304 stainless steel for dent- and scratch-resistant durability and stability
- Recessed base for easy maintenance
- One-piece base for excellent spill protection
- Unique bag stabilizer slots to firmly and discreetly hide bags from view
- Exterior brushed finish offers a contemporary and stylish appearance while aiding in maintenance and upkeep
- Fitted top with a snug fit for greater structural integrity and clean lines

The next time you visit a park or art gallery, shopping center or airport, take a look around. Chances are you'll find a Cleanline product nearby, making the environment sleeker, cleaner and more attractive.

Imagine a Cleanline in your space, and we can help you make it happen. With your project's specifications we can develop a full program for waste receptacles and planters that will keep your public space clean, safe and attractive. Call us at 419.535.5931 or visit www.cleanline.ca to put a new spin on your public décor.
